Want to know what some new blinds, awning or shutters will look like in your home?

Since 1988, Apollo Blinds has been Australia's trusted name in custom-made window furnishings – offering high-quality blinds, awnings, shutters, curtains, and screens designed for every style of home.

We believe great window coverings do more than control light – they enhance comfort, privacy, and the overall feel of your living space. At Apollo, we combine traditional craftsmanship with modern precision to create tailored solutions for interiors and outdoor areas.

Every product is custom made, expertly installed, and built to last. As one of Australia's leading providers of window furnishings, Apollo delivers comfort, control, and timeless style to every room – inside and out.

About Apollo Blinds

Experience superior quality with **APT, Automated Paint Technology** – a cutting-edge painting process designed to deliver a flawless, consistent, and durable finish for your shutters.

Crafted with premium **acrylic paint infused with UV inhibitors**, APT safeguards your shutters against the harsh Australian sun, preserving their beauty for years to come.

Available in Smartwood™ and Timber, **APT combines innovation with elegance for a perfect shutter solution.**

APT Louvre Shutters

APT Timber Shutters

APT Smartwood Shutters Key Features

- Non-Toxic PVC polymer foam Improved thermal & acoustic qualities
- Cost effective
- Durable and warp resistant
- 89mm blade size only
- Hinged, Sliding, Bi-fold and Fixed/Removeable mounting methods

APT Timber Shutters Key Features

- Paulownia Timber
- More sustainable & recyclable
- Lighter and Stronger materials
- Water and Insect-resistant
- 89mm blade size only
- Hinged, Sliding, Bi-fold and Fixed/Removeable mounting methods

Australian Smartwood® Shutters

Proudly Australian-made, Smartwood Shutters are crafted with precision using Automated Paint Technology. Designed to withstand Australia's unique climate, the PVC polymer shutters with high quality acrylic paint will protect your home from Australia's harsh sun, maintaining their stunning appearance for years to come.

Key Features

- Australian Made
- One Directional Closure
- APT: Automated Paint Technology
- Notched Blades
- Clearview tilt rod
- Smartwood durability, ideal for any room.
- 89mm Blade Size only

Icon Smartwood Shutters uses an environmentally friendly, non-toxic PVC polymer that is harder than timber – so they won't crack, chip, split or warp, even scratches are hardly noticeable. The blades have a cellular aluminium rod insert for added strength and stability, allowing spans to be wider.

Key Features

- Bi-Directional Closure
- Rebated Stiles - Easiest to clean product on the market
- Notched blades
- Clearview tilt rod
- Smartwood durability, ideal for any room.
- Hinged, Sliding, Bi-fold and Fixed/Removeable mounting methods
- 63mm, 89mm & 114mm blade size
- Custom colour available for an additional fee

ICON Smartwood™ Shutters

ICON Plantation Shutters

Apollo's quality range of **Plantation Shutters** have been chosen from the best possible materials. You can choose from the beauty and warmth of Western Red Cedar or Tilia (Basswood).

Western Red Cedar is a medium density, lightweight softwood, that offers the best insulating qualities of all timbers.

Tilia is a hardwood, kiln dried to about 10% moisture content, to increase its stability and resistance to bowing, warping, knocks and bumps.

Key Features

- Bi-Directional Closure
- Certified Timber sourced from sustainable growth forests
- Clearview tilt rod
- 3 Coat paint finish for a tougher & more durable finish.
- Perfect choice for angled, circular and unique shaped windows
- Hinged, Sliding, Bi-fold and Fixed/Removeable mounting methods
- 63mm. 89mm & 114mm blade size
- Custom colour available for an additional fee

e13 Aluminium Shutters

e13 Aluminium Shutters are an exterior window covering made from lightweight aluminium. Weather resistant and durable, these shutters are suitable in hot and humid to cold and dry conditions.

Available in fixed, adjustable, sliding & bifold.

Key Features

- Light and privacy control
- Durability and weather resistance
- Various configurations
- Durable & weather resistant

Curtains

Introducing Apollo's curtain collection. From super sheers, linen looks to linen blends, we have the right curtain for your home or office. Our curtains are available in a range of neutral colour fabrics and a wand control is standard.

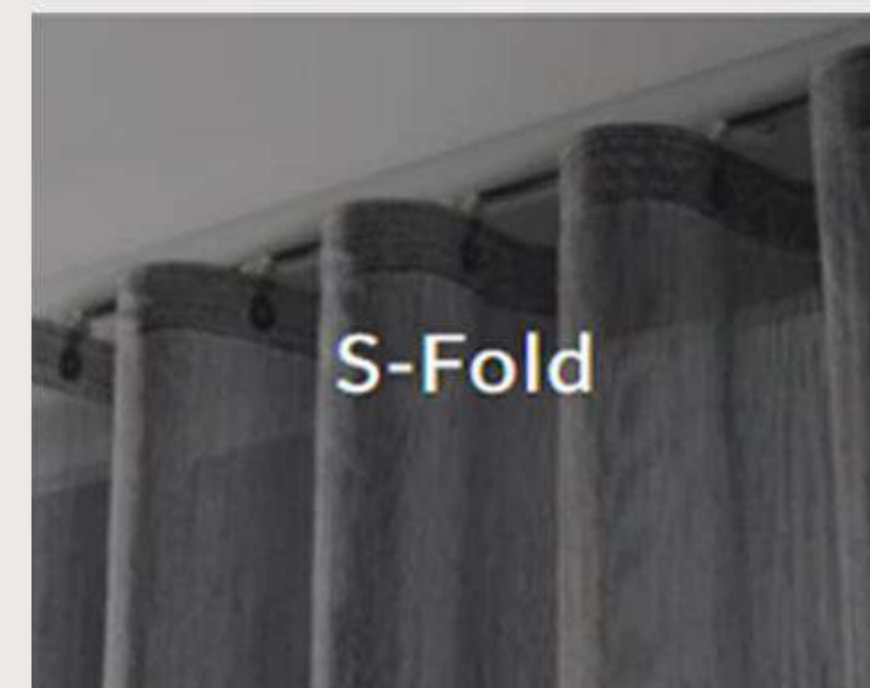

Key Features

- Australian Made
- Easy to maintain
- Privacy Control
- Sound Absorption
- Heat Insulation
- Wide variety of fabrics
- Motorisation available

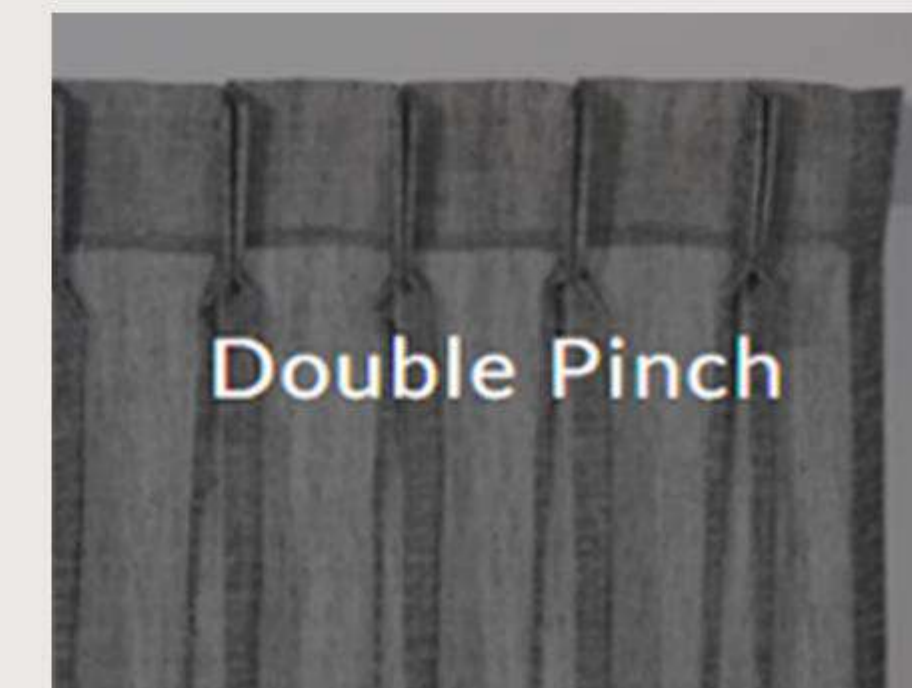

Curtain Heading Option

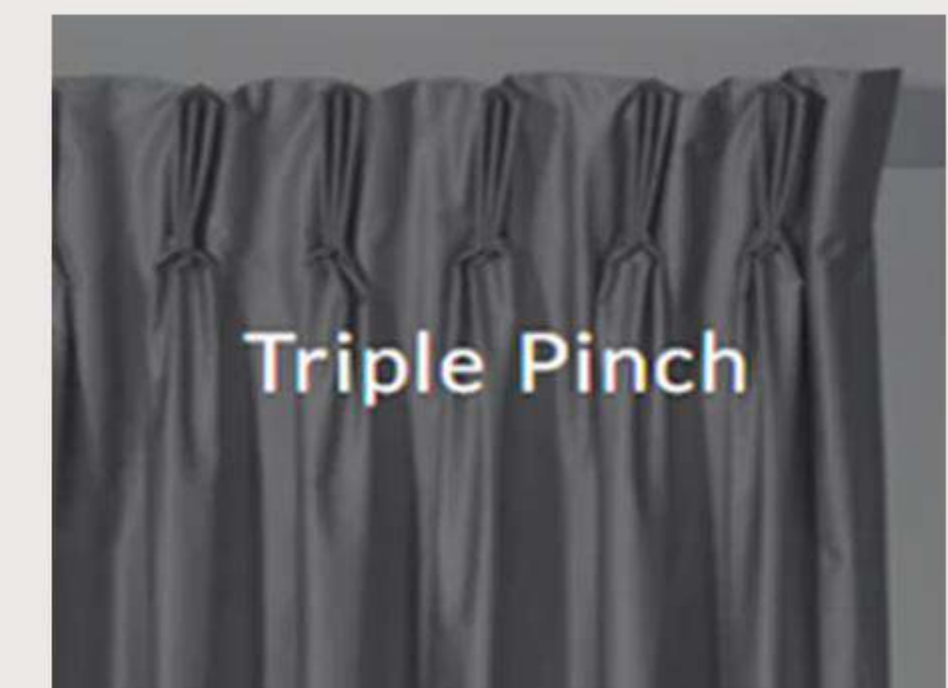

Selecting the right curtain heading is an important decision from both a practical and aesthetic perspective. See all available options below.

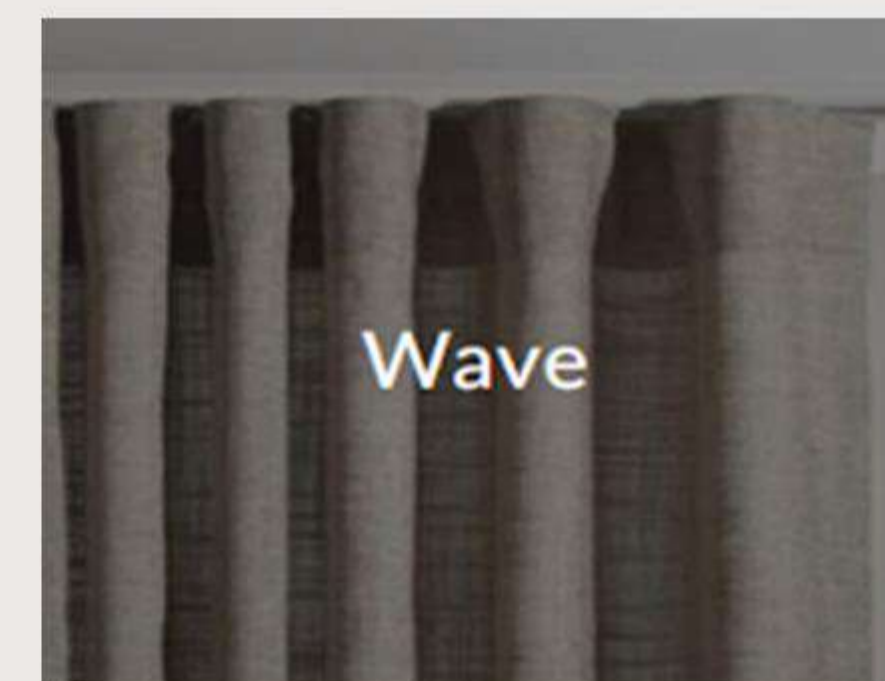

S-Fold

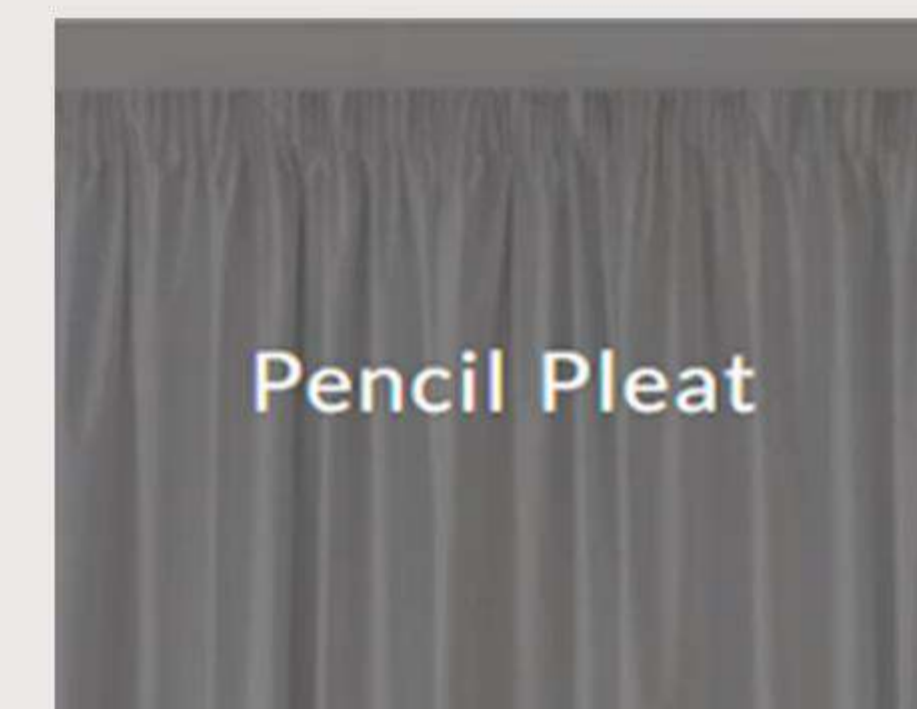

Double Pinch

Triple Pinch

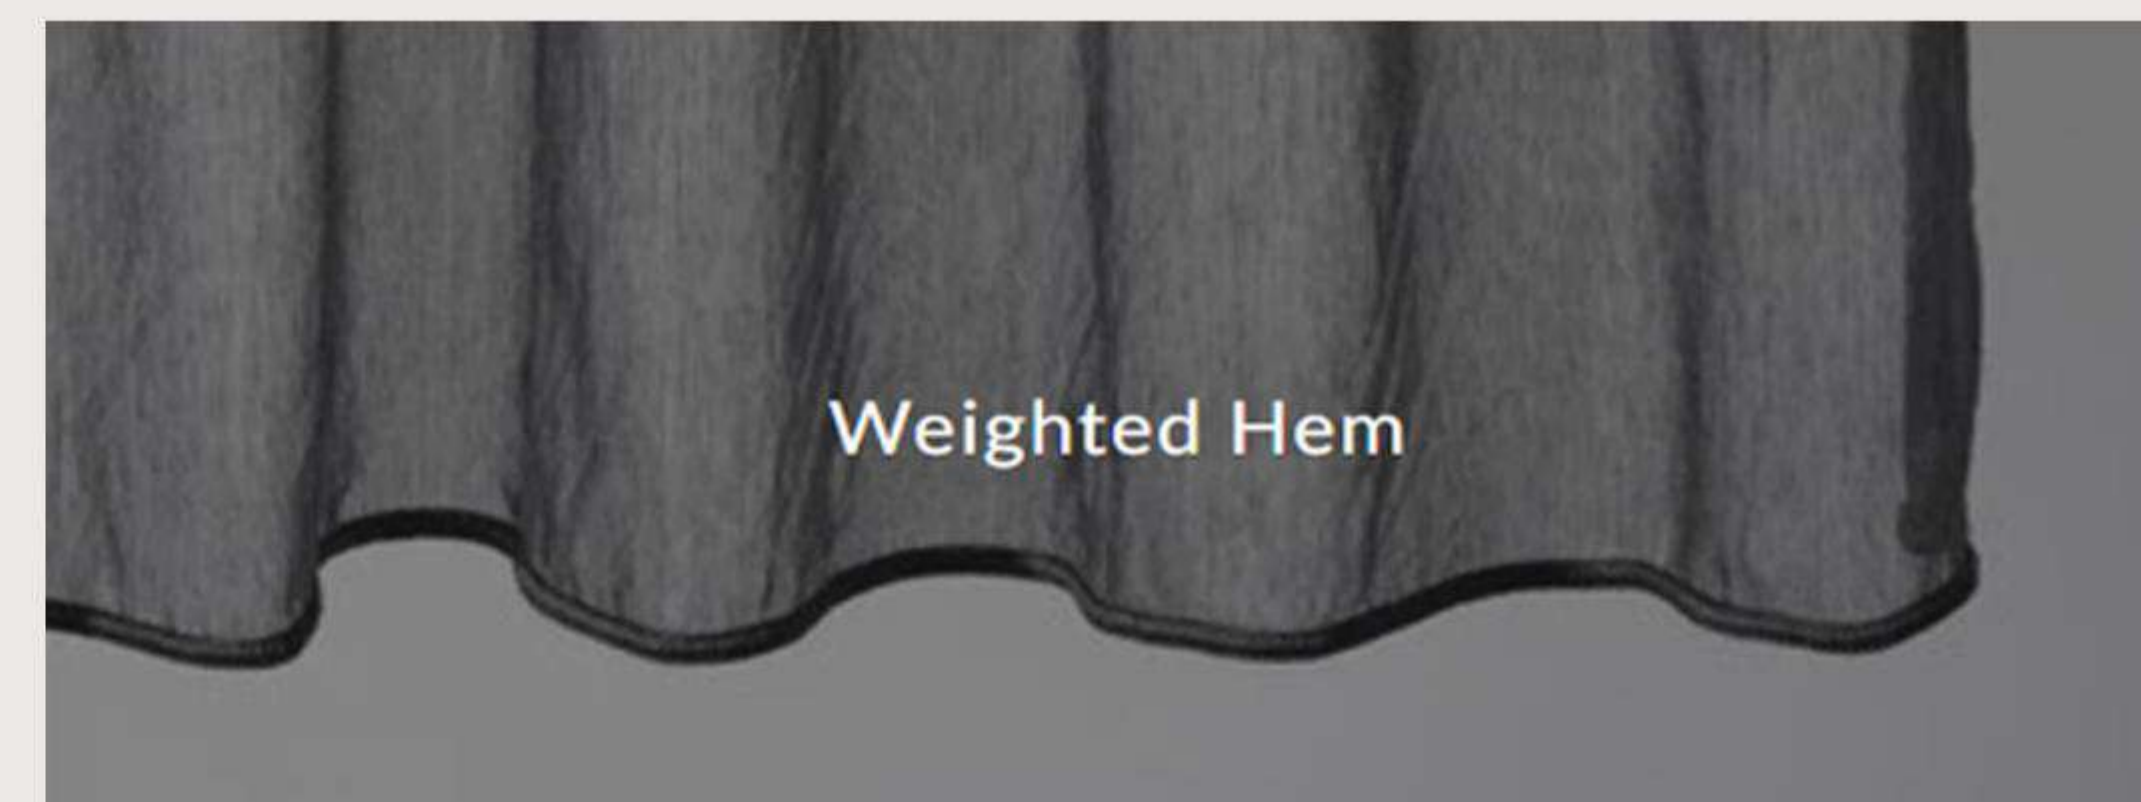

Wave

Standard Track

Veri Shades®

Key Features

- Easy to use
- Easy to maintain
- Style of curtains & the versatility of blinds
- Soft and silent – even as you walk through
- Stylish finishes, many ranges to choose from

Veri Shades®

Roller Blinds are the most popular blind on the market today. Available in a large range of colours, performance fabrics and eco-friendly screen fabrics, they have chain control operation as standard. Rollers come with an aluminium bottom bar, decorator trims and stylish colour coordinated brackets.

Apollo Rollers are available in **light filtering**, **sunscreen** or **blockout fabrics**.

Light filtering allows light to filter through, while protecting from the sun and offering privacy.

Sunscreen fabrics offer 3 levels of openness - 3%, 5% or 10%. They control the heat and block out up to 90-97% of harmful UV rays (depending on the openness factor).

Blockout fabrics offer room darkening and are great for bedrooms.

Roller Blind customisation

Double Brackets

- Practical solution that suit most window style
- Many customisation options
(Mix and match to suit your décor)
- Available in Chain Control, Spring or Motorisation operation

Roller Blinds

Vertical Blinds from Apollo are budget friendly and can withstand the harsh Australian climate. We offer two different verticals

Fabric Vertical Blinds are window coverings composed of long, vertically hanging fabric panels called "Vanes" Unlike curtains or drapes, these vanes rotate individually along a top track, allowing you to control light and privacy by adjusting their angle.

Sloping Vertical Blinds are designed for windows not perfectly vertical, such as skylights, conservatories or angled windows. With unique tracks or brackets, you will still be able

Key Features

- Chained, Chainless or Sewn in weights
- Chain control or Wand operation
- Easy to clean
- Suitable for angled windows
- Practical choice for sliding windows and doors

Panel Glides are a contemporary and functional window treatment solution that is rapidly gaining popularity in Australia.

These panels slide on tracks, fitting just right with sliding doors and big windows. They also can function as dividers giving you separate living spaces.

Key Features

- Easy operation
- Different drawing options: Left, right or centre opening/bunching
- Fabric easily matched to Verticals, Rollers & Romans
- Available from two to nine panels

Panel Glides

Apollo's **Smartwood Venetians** offer the timeless appeal of natural timber with the performance needed to combat the harsh Australian conditions.

Key Features

- Timber Aesthetic
- Moisture-Resistant & Warp-Free
- Energy efficient & Insulation
- Ideal for every space
- Suitable even in high humidity
- Motorisation available

Smartwood® Venetians

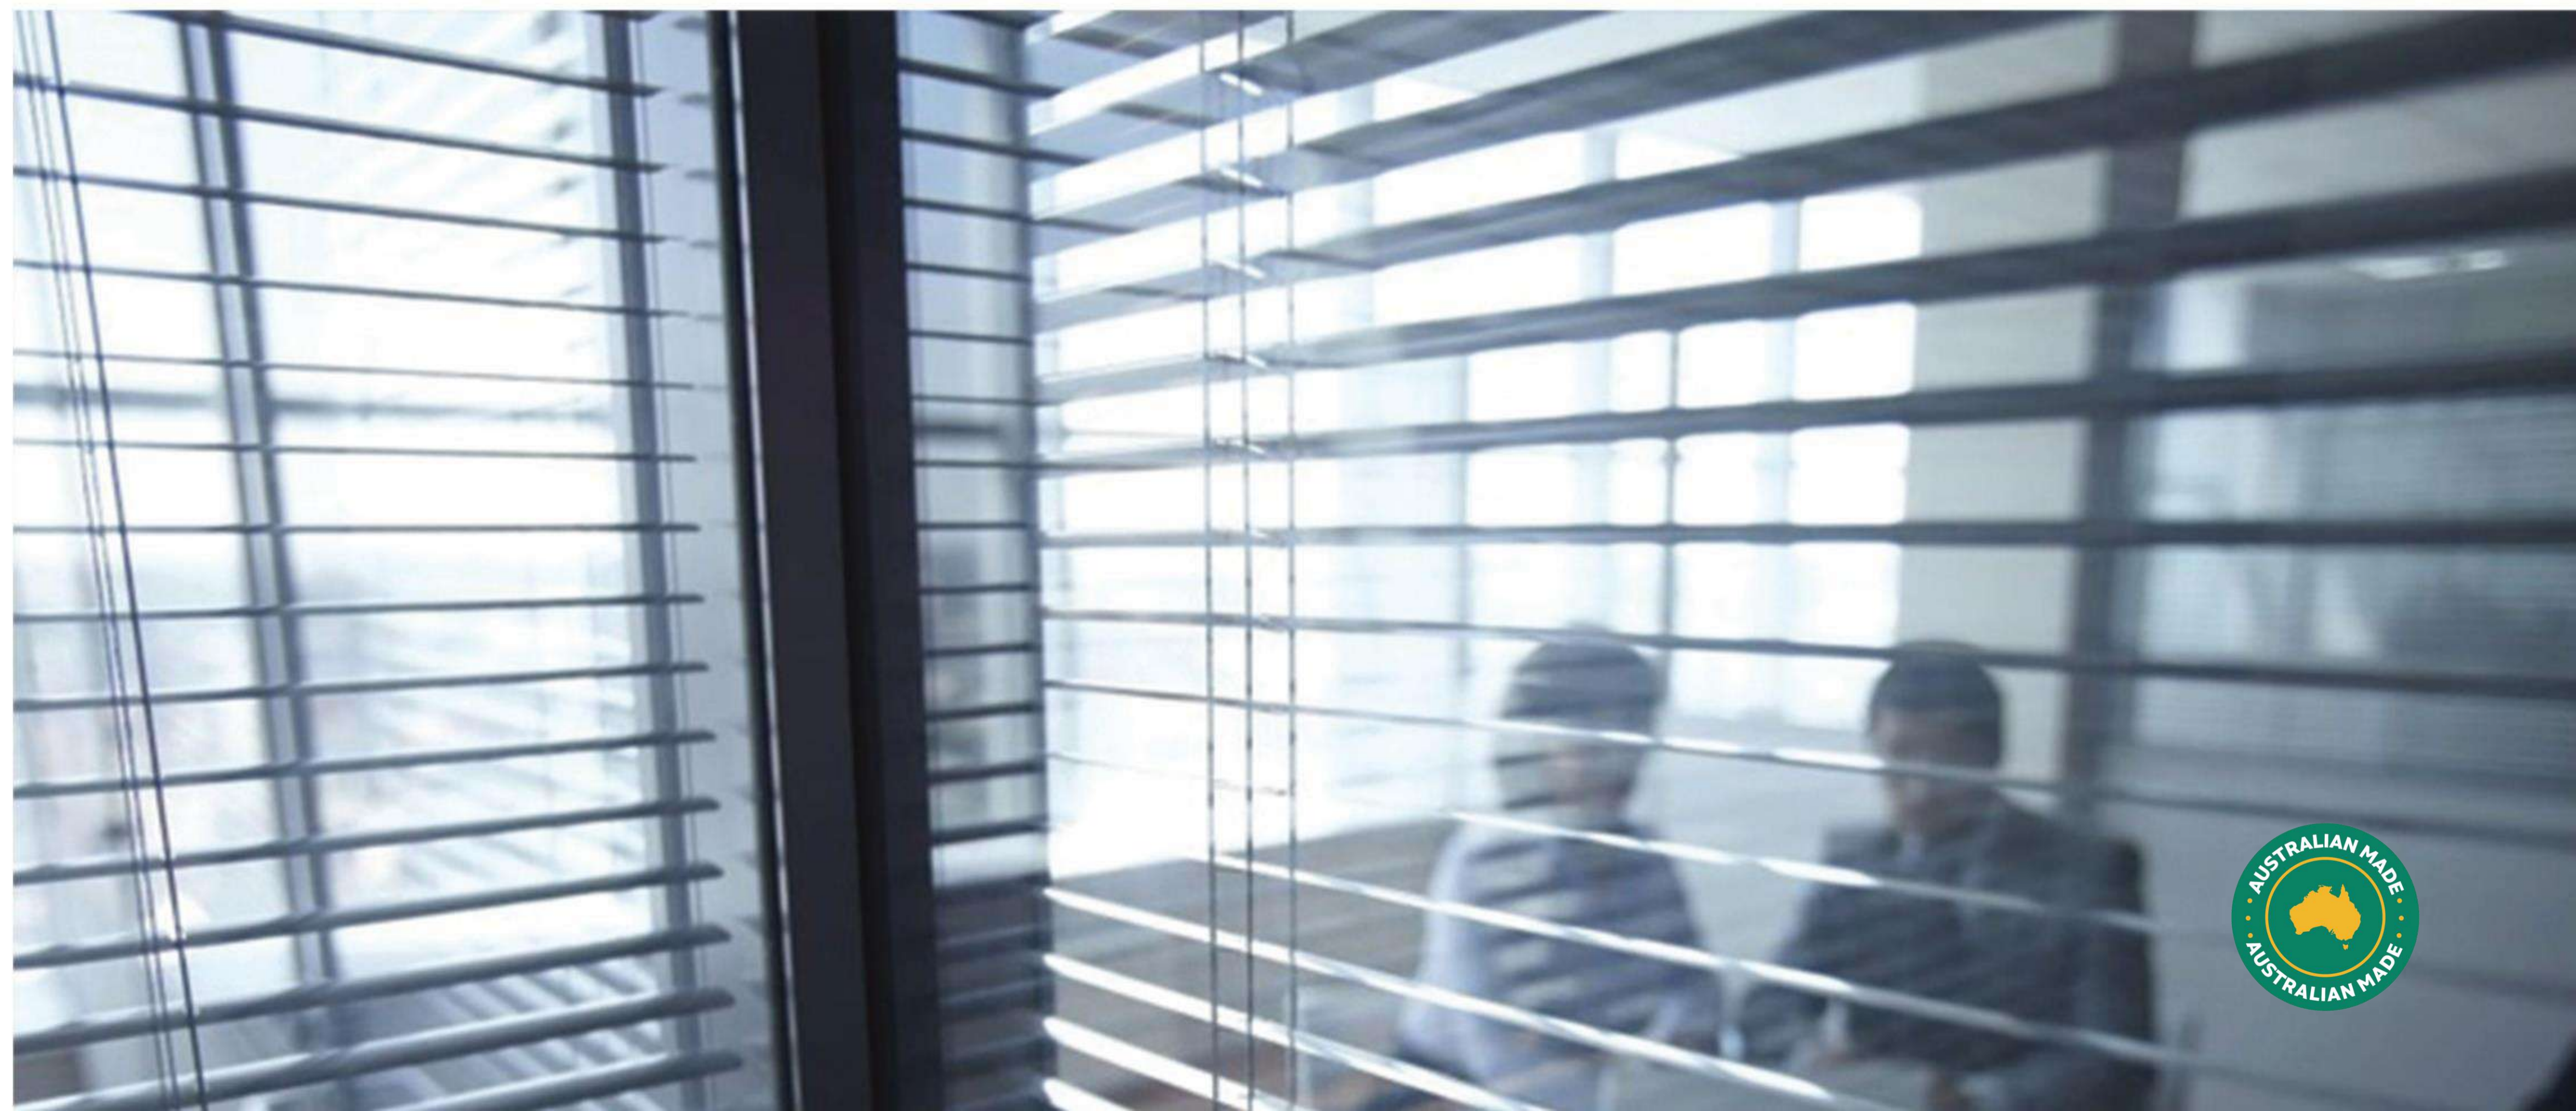

Aluminium Venetians

Smooth, elegant **Aluminium Venetians** control the light at a touch, transforming rooms from bright and breezy, to soft and subtle.

Key Features

- Rust resistant
- Low Maintenance
- Excellent light control
- Fits into narrow window reveals
- Great for swinging doors
- Motorisation available

Timber Venetians are made from high quality Basswood built to last while adding a natural, organic feel to your interiors.

Key Features

- Low maintenance
- Easy cleaning
- Basswood Durability
- Designed to withstand the Australian climate

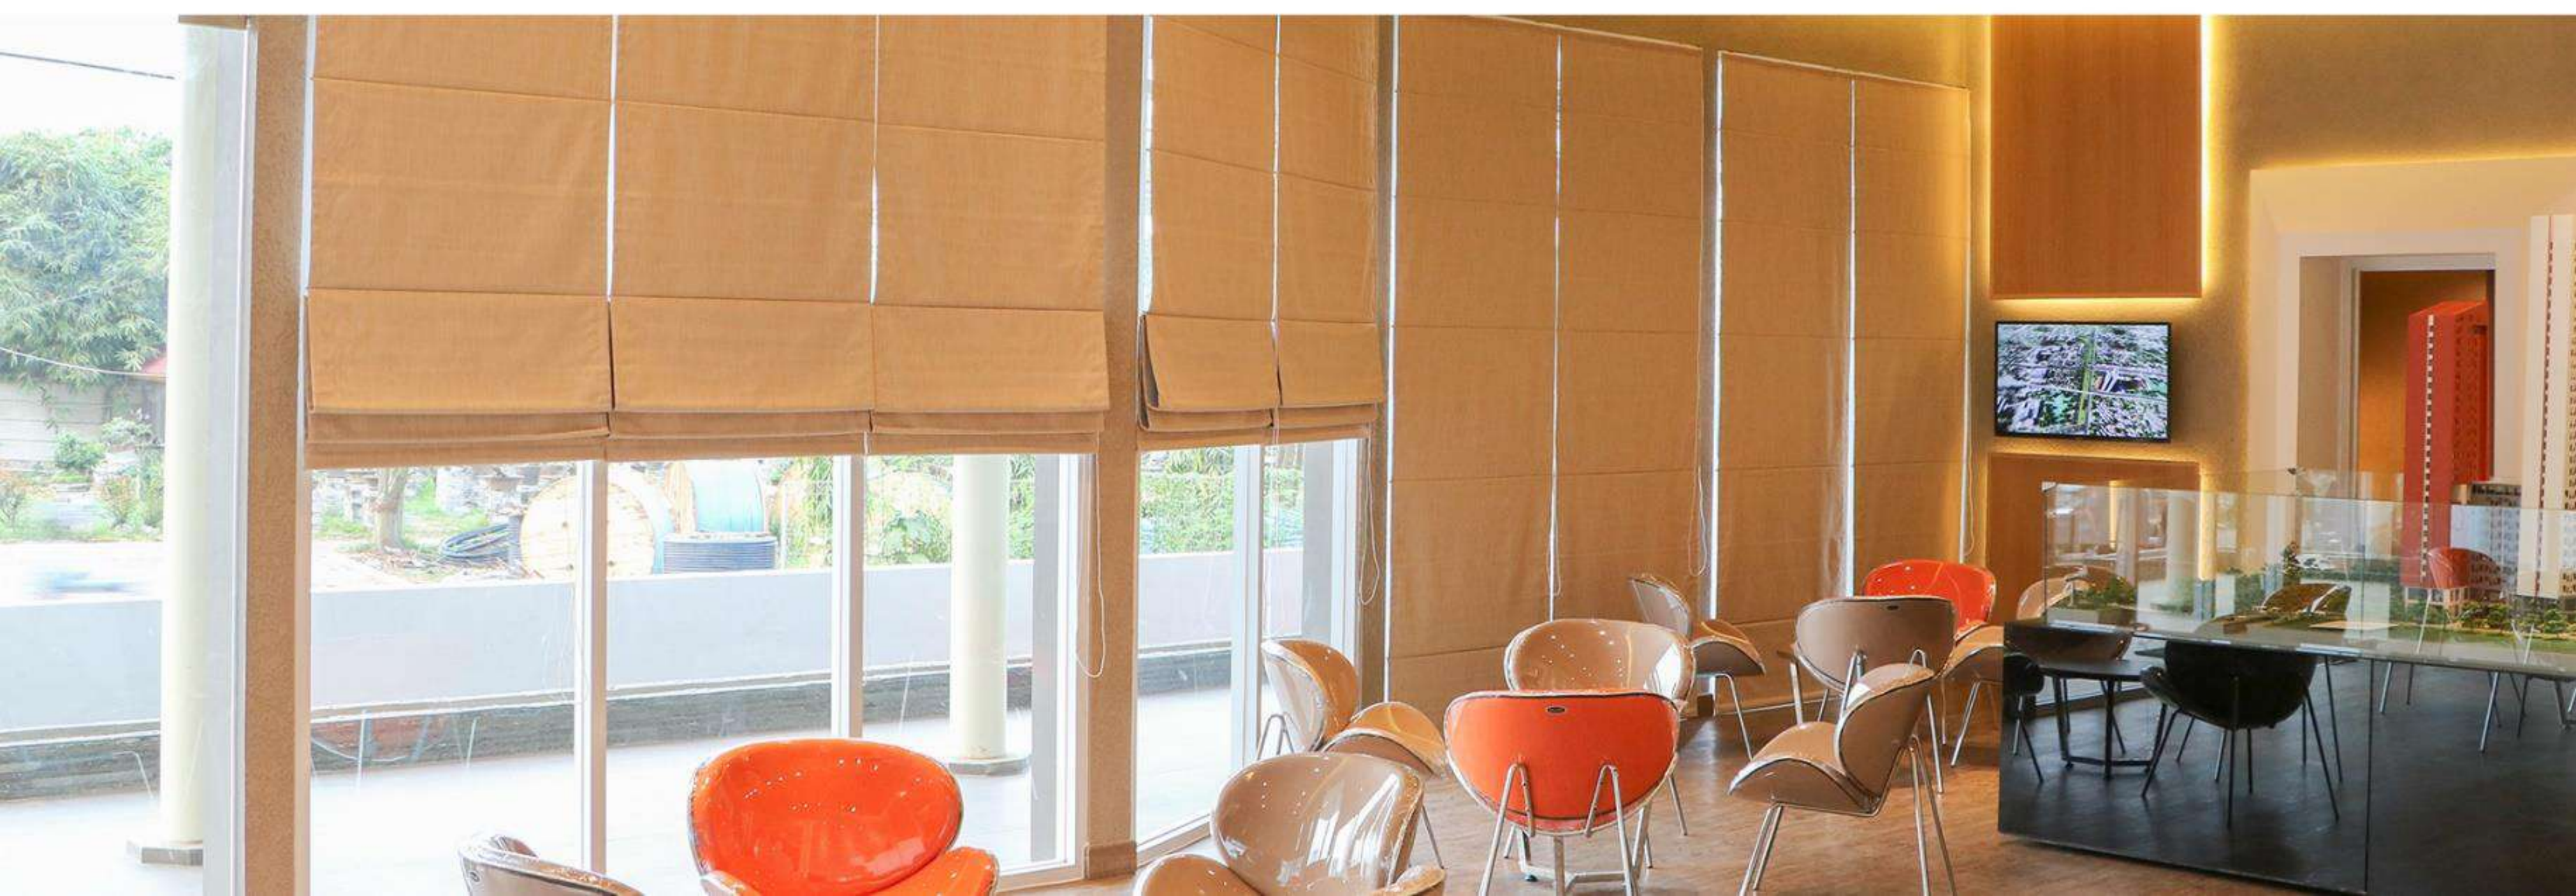

Timber Venetians

The classic **Roman Shade** fits with traditional or contemporary décor. The single piece of fabric folds up in a series of pleats when raised and can be customised to fit a wide variety of windows.

Key Features

- Unique aesthetic
- Customisable & Timeless style
- Privacy Enhancement
- Variety of control mechanisms
- Motorisation available

Roman Shades

Cellular Blinds also known as honeycomb blinds have a unique design that traps the air in the honeycomb cells, slowing down the transfer of temperature.

Key Features

- Compact due to stacking
- Easy to clean
- Great insulation properties
- Variety of control mechanisms
- Motorisation available

Cellular Shades

Viewline Shades innovative two-in-one blind offers you the convenience of two fabrics on one roller.

Viewline Shades allow you to create a layered look in your home while allowing optimal light control. A perfect option to reduce glare while still allowing for natural light.

Key Features

- 2 blinds in 1
- Superior light control
- Layered look for unique design
- Maintain all the functionality of a traditional roller blind

Viewline Shades

Enduragard® Roller Shutters offer smooth good looks, privacy and a sense of security. They are designed and made in Australia to withstand the toughest conditions, providing effective thermal insulation and reducing the effects of exterior noise.

Key Features

- Burglary deterrent/Security feature
- Sound dampening
- Storm protection
- Various control options: Manual or Motorised
- Great for creating darkened conditions during the day
- Double Line 42mm. Our most popular size suited to most windows.
- Widespan 55mm - Perfect for larger windows.
- Firesafe Bushrated 36mm - Extruded Aluminium compliant to BAL 40 areas.

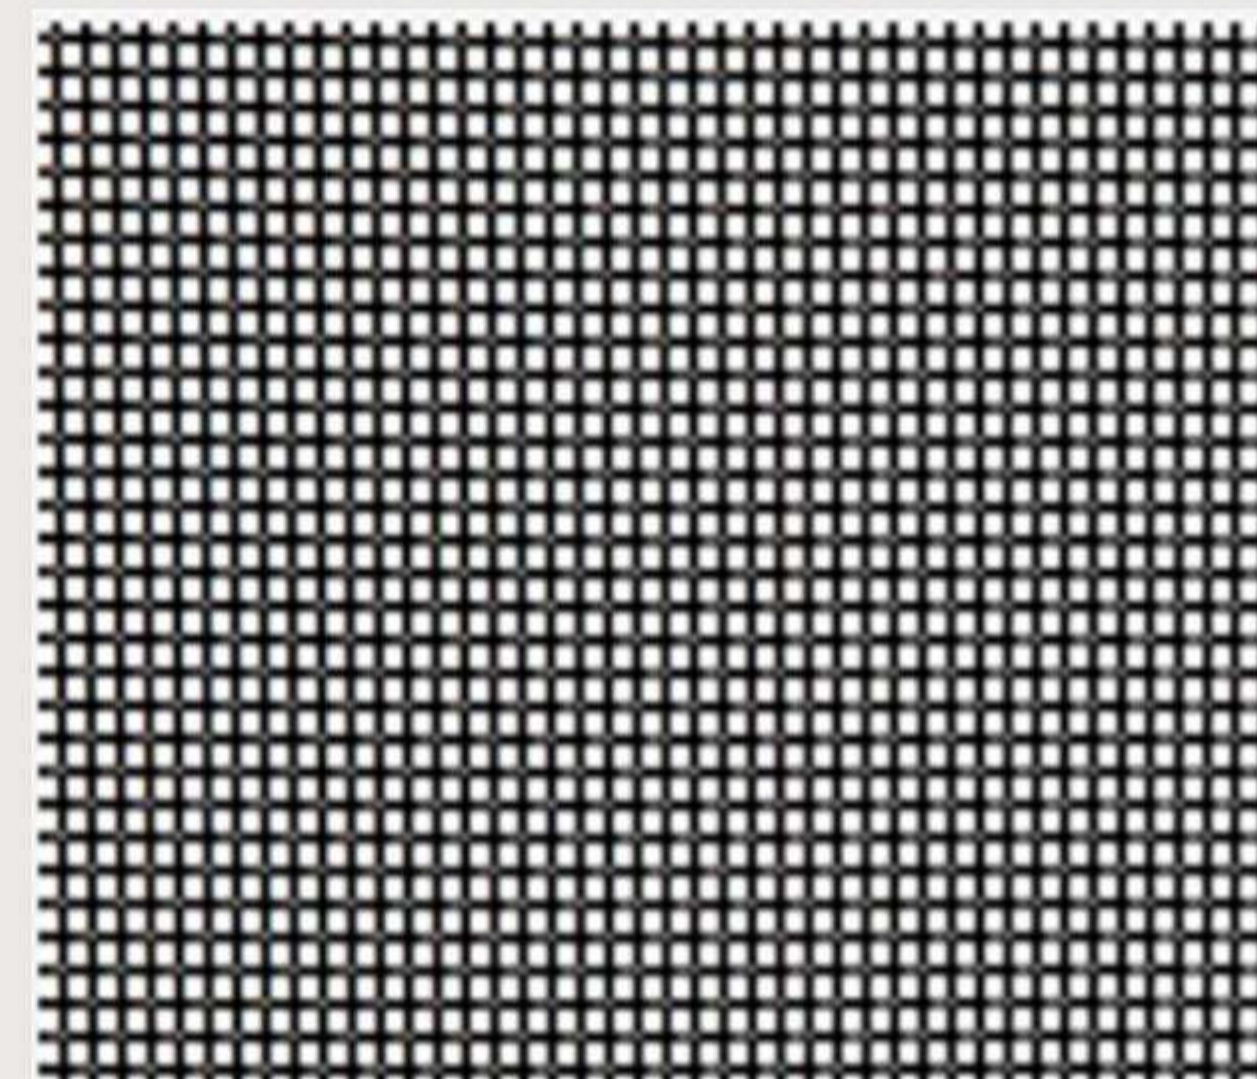

Apollo's Security Doors and Screens are made from powder-coated aluminium frames that are resistant to both oxidation and corrosion.

The colour of the screen is always black to ensure light can pass through, but the frames can be customised to suit your home. A single or triple locking system is available for the security screen doors.

Not all security screens are the same. **Apollo's Security Doors and Screens** are compliant with Australian standards. **NSW Master Security Licence 000104045**

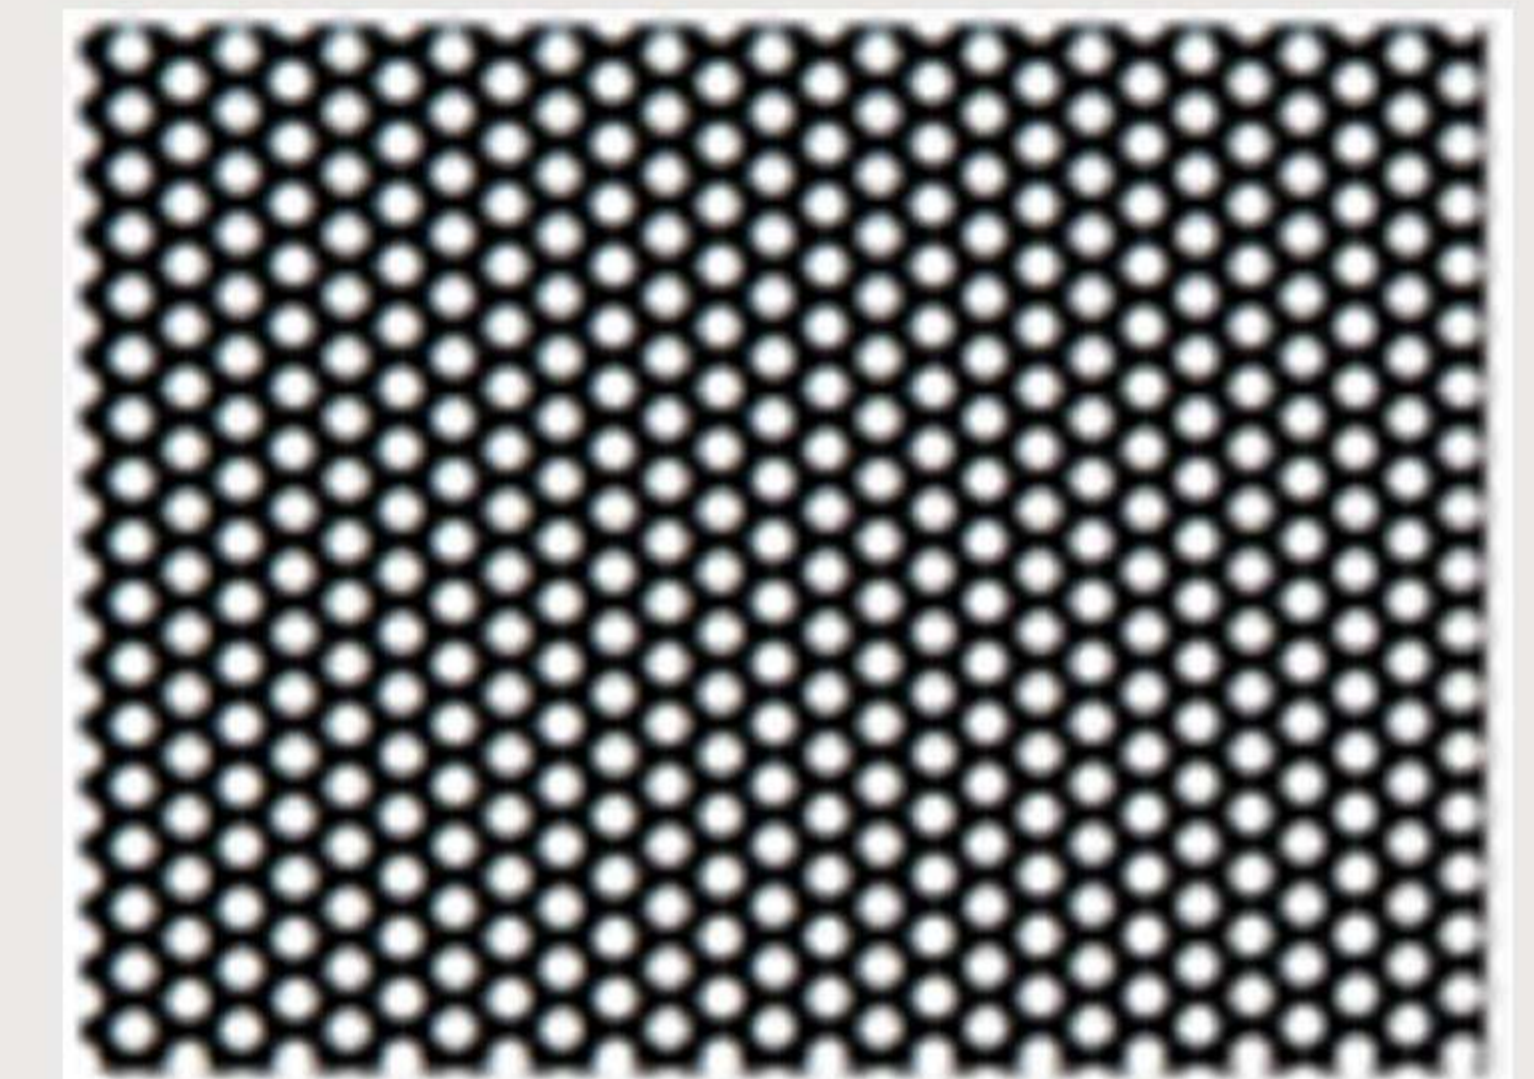

Tested and passed:

- Dynamic impact test
- Jemmy test
- Knife shear test
- Bushfire test & fire attenuation test
- Corrosion test
- Intruder Resistant
- UV Protection
- Fall Prevention Suitable
- Insect Protection

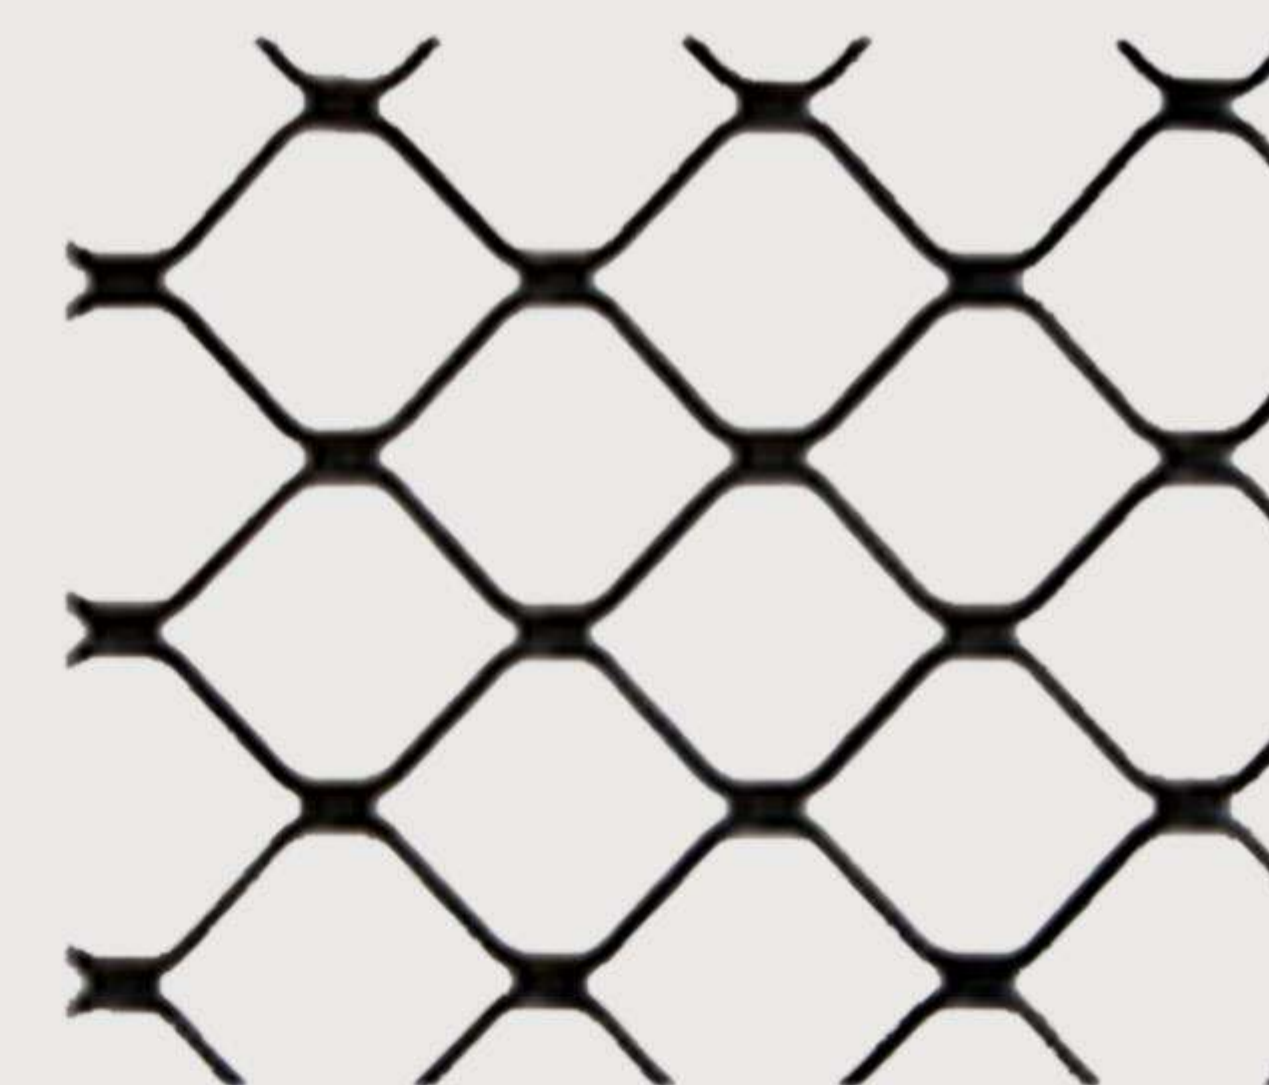

TOUGH

The TOUGH 316 Marine grade stainless steel security mesh system is corrosion resistant and coated in a specialised UV protective coating for a clear-long lasting finish.

PERF

The PERF security mesh system uses durable 1.6mm thick aluminium provides unobstructed visual access and perfect for widespan security in commercial and residential applications.

DIAMOND + FLY

Tempered aluminium diamond grille
Fly Screen mesh.

Screens - Doors & Windows

Awnings are a practical investment that can protect your windows, and enhance your home's aesthetic appeal. Whether you choose sleek designs or bold fabric options, adding awnings can elevate the look and feel of your home while offering year-round protection and comfort to your outdoor living spaces.

Awnings

Key Features

- Sun protection
- More functional outdoor living spaces, which can increase property value
- Best Product to keep your home cool
- Wide range of fabrics to choose from
- Motorisation available on many styles

Factors to consider

- The size of the area you want to cover
- The type of fabric
- The features, such as sunscreens or motors
- Maintenance requirements
- Your budget as they can range significantly in price

Awnings

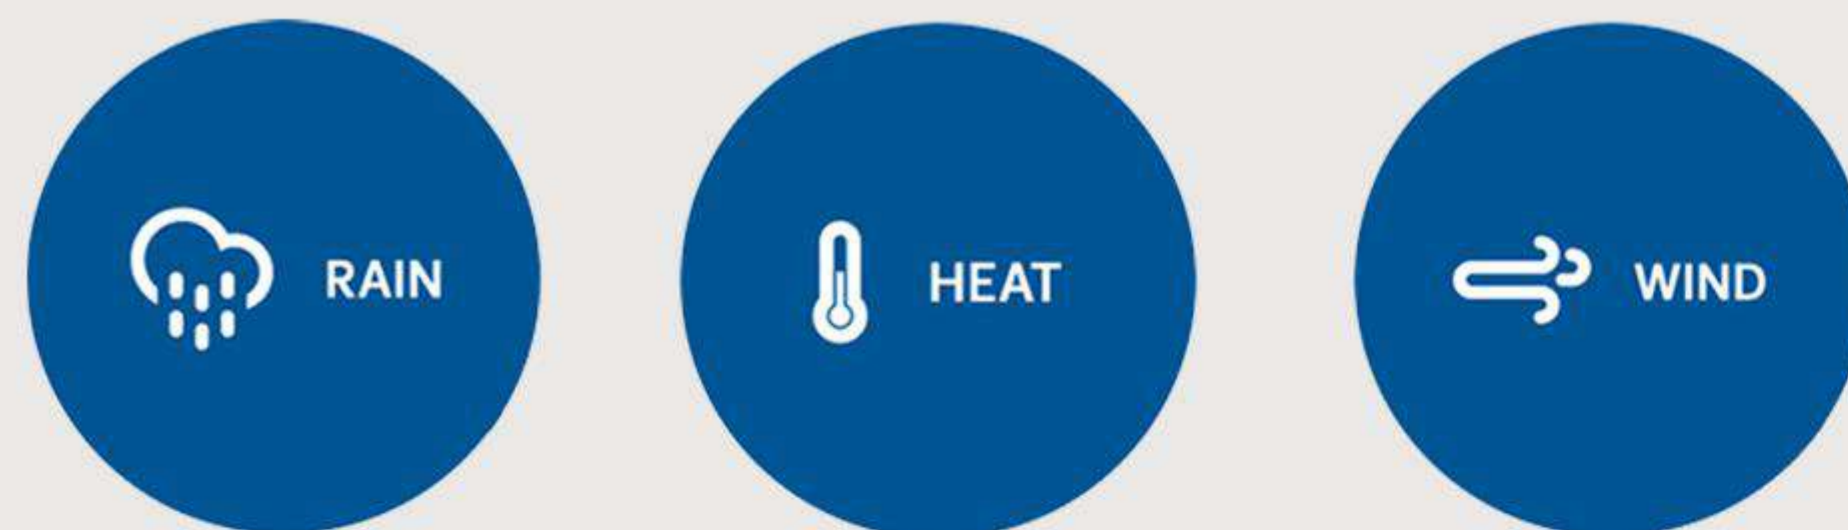

Ziptrak® Transform your entertainment area in seconds.

Ziptrak® outdoor blinds instantly create a brand new space in your home, ready to entertain family and friends at a moments notice.

Protected at any time of the year, with a sense of seclusion and sanctuary, you'll spend more time enjoying life outdoors.

Protection from the elements

Ziptrak® sealed blind system shields you, your patio and your furniture from wind, rain, dust, glare and insects. Make the most of our beautiful climate but protect yourself from undesirable weather.

- Custom made for every installation.
- Effortless and easy-to-use.
- Child-safe; no cords, ropes or wires.
- Australian made patented design.
- Available in Spring Operation or MaxiSmart Motorisation.

With so many types and variations on **Awnings**, it is important to consider what will suit your home aesthetic and what features are most important to you.

Awning styles available include:

- Automatic Lock Arm Awnings
- Flexi Fit Automatic Lock Arm Awnings

- Roller Blinds
- Ziptrak
- Straight Drop Rollers
- Wire Guided
- FlexiFit Pivot Arm
- Convertible Awning
- Fixed Guide
- Enduragard Roller Shutters

MaxiSMART

Tips to Keep Your Home Safer

Even with safety devices in place, we recommend the following:

- Keep furniture, cots, and toys away from windows and blinds.
- Always secure cords using safety devices.
- Consider motorised blinds in kids' bedrooms and play areas.
- Regularly check that cord devices are firmly attached and not damaged.

Child Safety

Protecting Your Little Ones at Home

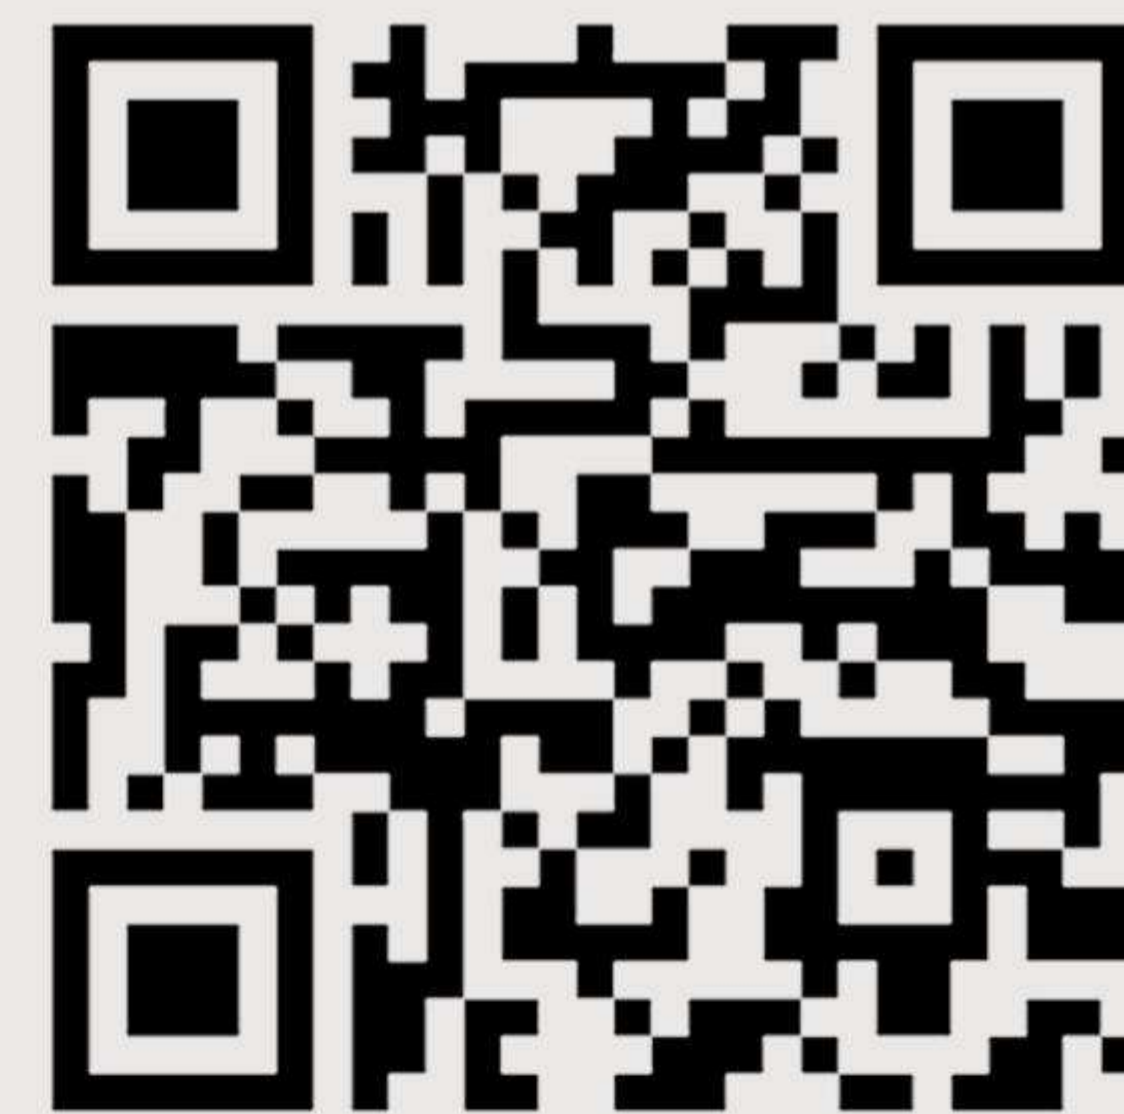

At Apollo Blinds, your family's safety is our top priority. Blinds and window coverings with cords or chains can pose a serious risk to infants and young children, potentially leading to accidental strangulation.

That's why we design, manufacture, and install all products in line with the **ACCC** and **Australian Safety Standards** (AS/NZS 60335.2.97) for internal window coverings.

Our Child-Safe Features

We ensure every blind installed in your home includes safety features such as:

- Chain and Cord Safety Devices that secure loose cords and prevent loop formation.
- Motorisation Options – Go completely cord-free with remote-controlled or smart blinds.
- Height & Fixing Compliance – Chains and cords positioned out of reach of children, with secure wall fixings.

Find out more about care instructions by scanning the below QR code.

Child Safety

Warranties

At Apollo, your satisfaction is our highest priority, so we take our warranties seriously. We have operated for over 30 years and have covered over 2 million windows.

Using the best quality components and fabrics, we manufacture to the highest standards, here in Australia, and overseas. We partner with some of the world's largest, most trusted manufacturers.

It's no surprise that we proudly stand by all our products, confident that we are giving you the best possible quality.
