

VENETIAN BLINDS

SMARTWOOD® VENETIANS

Smartwood® Venetians bring the ambiance of timber venetians within everyone's reach. They are the perfect alternative to natural wood. Smartwood is an environmentally friendly, non-toxic PVC polymer that is harder than timber and has a lighter core which is less heat absorbing. They resist fading, peeling, cracking and warping and even scratches are hardly noticeable. Smartwood's ability to resist flames, moisture, bacteria and termites makes them the smart choice for wet areas in your home. Motorisation is available for safety and convenience.

VOGUE SMARTWOOD® VENETIANS

Co-extruded foam filled polymer, giving it a lighter core that is less heat absorbing

- Resists fading, peeling, cracking and warping
- Suitable for high humidity areas of the home like bathrooms and laundries
- Tested to 55 degrees Celsius (performing well in Australian conditions)
- Smooth finish slats in both 50mm and 63mm width
- 50mm slat - maximum blind width 2400mm, maximum drop 2600mm, maximum coverage area 6.24m²
- 63mm slat – maximum blind width 2400mm, maximum drop 3000mm, maximum coverage area 4m²
- Matching 100mm flat fascia, maximum fascia width with no joins 2680mm
- Returns for 50mm slat 75mm, 63mm slat 85mm
- H-profile bottom rail 50mm x 15mm
- Same side lift and tilt cords
- Hold down clips not recommended
- No hole option available (surcharge applies). This option improves the closure of the blinds and is only available with ladder tape in white, cream or mid brown. It is not suitable for face fit applications as slats can get knocked out
- Cut outs available with a maximum width of 80mm
- Motorisation available for safety and convenience

TIMBER VENETIANS

Apollo's range of Timber Venetians adds warmth and good looks to your home and are available in Western Red Cedar or Basswood.

Western Red Cedar is a medium density, lightweight softwood that offers the best insulation of all timbers and is available in an oiled or lacquered finish.

Basswood is a hardwood, and comes in a lacquered or painted finish.

CARE & CLEANING

Close slats and dust the surface using a feather duster or soft cloth. Close slats in the opposite direction and repeat the process. Blinds should be dusted weekly to control build-up of dust and grime. Do not force slats apart with your hands to reach the window locks or handles. The force may buckle slats and void the guarantee if the blinds show evidence of misuse.

Let Apollo Blinds open your mind to new decorator ideas. Since 1988 Apollo Blinds has focused on delivering the latest in home fashions with consistent reliable service. An Australian owned company with most products still being manufactured in Australia, Apollo Blinds gives you peace of mind – all fabrics and components come with a 2 year warranty (1 year in home) on manufacture and materials. Some materials or components may carry additional manufacturer's warranty.
