Authorised Ziptrak® dealer.

# ZIPTRAK® OUTDOOR BLINDS

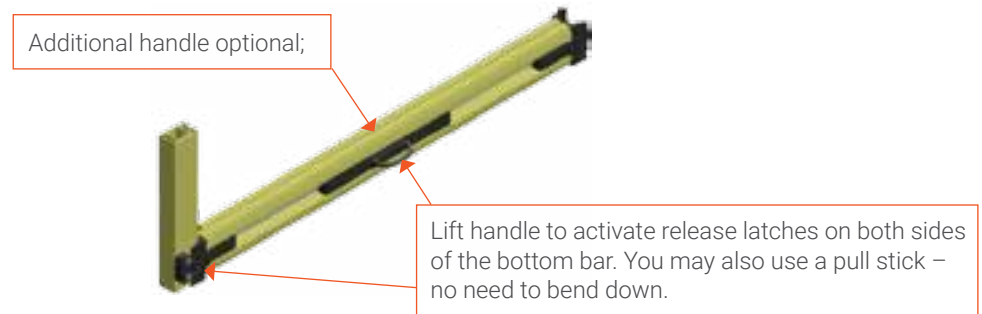

Pull down and push up! It's that EASY to protect yourself from the elements with Ziptrak® track guided blind system.

Specially designed tracks on both sides of the blind enable the fabric to glide smoothly and easily - stopping anywhere you want!

Ziptrak® blinds can be secured and locked in the down position to guard against moderate winds and UV – no zippers or buckles required, it's that simple

To substantially reduce the impact of sun, wind, rain and UV, choose the fabric that you need:

- hi-tech quality solar screen fabrics

*Optional: An additional handle on the reverse side of the bottom bar to allow for unlocking your Ziptrak® blind from both sides.*

# ZIPTRAK® OUTDOOR BLINDS

## EASY-TO-USE

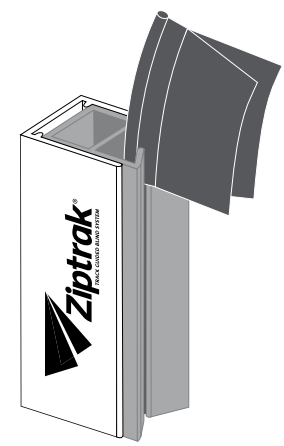

Ziptrak® track guided blind system locks your blind fabric into special tracks, with no gaps at either side to secure against flapping.

Its quick and easy 'pull-down, push-up' action takes out all the hard work of regular blinds and leaves you with an elegant blind that enhances the look and feel of your home or business.

## VERSATILE

Whatever the style of your residence or business, Ziptrak® has a solution for you:

- Clear or tinted PVC protects outdoor areas all year round from wind and rain
- Hi-tech solar screen fabric provides sun and UV protection
- A large range of quality fabrics and materials that guarantee strength and wind resistance
- Manual or motorised operation
- Customised Ziptrak® pelmets give added protection and a premium look.

## MOTORISATION FOR ZIPTRAK<sup>®</sup>

### MOTORISATION

Apollo's MaxiSMART™, motorisation hub allows our Ziptrak® outdoor blinds to be operated at the touch of a button, a tap on your mobile device, or simply the sound of your voice, when integrated with the world's most popular automation devices like Google® Home or Amazon® Alexa®.

Not only can you program your outdoor blinds to automatically operate, you can also control them while you're away from home using your smart device.

## MaxiSMART™ LI-ION SOLAR STATION OUTDOOR BLINDS MOTOR

### A-20/10 RTS MOTOR WITH LI-ION (BATTERY) SOLAR STATION

- Motor is powered by a Li- Ion (Battery) Solar Station included with every motor
- **Radio Technology System (RTS)** operated via any MaxiSMART™ remote
- 16sqm Max
- No Electrician Required
- Not recommended for 2nd Storey Installations
- Trickle charged via Solar Station
- 250mm White Motor to Molex Cable supplied with Black External Molex
- Emission Frequency: 433.925MHz

### SPECIFICATIONS

- Rated Torque: 20 N.m
- Rated Speed: 10RPM
- Input Voltage: Via Solar Station
- Rated Power: 45W
- Emission Frequency: 433.925MHz

### SOLAR STATION

Solar station with integrated receiver is an all-in-one solar power station for outdoor motorisation

- Inbuilt rechargeable battery
- Inbuilt receiver
- Cable only comes in Black (200mm)
- Approx. Cycles: up to 200

### SPECIFICATIONS

- Rated Voltage: 12V DC
- Output Current: 12A Max.
- Radio Frequency: 433.92MHz
- Solar panel: 3W, 18V
- Lithium Battery: 3Ah, 12V
- Dimension: 412mm x 92mm x 32mm

## MOTORISATION FOR ZIPTRAK<sup>®</sup>

### MaxiSMART™ 240V OUTDOOR BLINDS MOTOR

#### A-40/15 RTS 240V MOTOR

- 240volt Motor
- **R**adio **T**echnology **S**ystem (RTS) operated via any MaxiSMART™ remote
- 21sqm Max outdoor blind
- Electrician Required
- 250mm Black Motor to Molex Cable supplied with Black External Molex
- Longer lifespan compared to a battery motor

#### SPECIFICATIONS

- Rated Torque: 40 N.m
- Rated Speed: 15RPM
- Rated Current: 0.99
- Rated Power: 228W
- Emission Frequency: 433.925MHz

## MOTORISATION FOR ZIPTRAK®

### MaxiSMART™ WI-FI BRIDGE

Wi-Fi bridge is a Wi-Fi to Rf bi-directional controller with integrated RS485 interface. It builds a connection via user's Wi-Fi router at home and enables user to control motorised window covering and sun shading products with designated smartphone applications and interaction with ecosystem such as Amazon® Alexa®, Google® Assistant, etc., via cloud API. The RS485 interface offers additional integration option into the third party home automation systems.

**Note: Apollo Blinds installer does not set up the Wi-Fi Bridge due to privacy concerns as you will need to create your own account and password.**

**MaxiSMART™ WI-FI BRIDGE**

W:75mm D:130mm H:35mm

### VOICE ACTIVATION

Voice Activation is available with Google® Home, Amazon® Alexa® or Siri® on your iPhone once a Wi-Fi Bridge has been purchased and installed.

Set up instructions are available in the Connector App

\* Please be mindful that when using the timer function or app away from home that there is no obstruction in the way of your blind or outdoor blind.

Max. 30 motors

Max. 20 scenes

Max. 20 timers

Max. 20 rooms

# CARE & CLEANING

Do not expose fabric outdoor blinds to extreme weather conditions, they are designed to create shade. Keep the fabric clean by brushing both sides with a soft brush. Hosing on a hot day with cold water will minimise the development of algae, mildew and fungi by removing dust and grime.

Do not roll outdoor blinds away wet. However if bad weather requires this, roll them back out as soon as possible to prevent mould build up. Do not allow dirt, plant or bird droppings to remain in contact with the fabric. Do not apply detergents, cleaning fluids or insecticides.

For stains, clean thoroughly with a non abrasive household cleaner (except for clear PVC) and rinse immediately with clean water and thoroughly dry. For clear PVC use a diluted solution of mild soap and water. Rinse with clean water and dry with a soft cloth or sponge.

Let Apollo Blinds open your mind to new decorator ideas. Since 1988 Apollo Blinds has focused on delivering the latest in home fashions with consistent reliable service. An Australian owned company with most products still being manufactured in Australia, Apollo Blinds gives you peace of mind – all fabrics and components come with a 2 year warranty (1 year in home) on manufacture and materials. Some materials or components may carry additional manufacturer's warranty.
